Educational Format and Delivery
Due to the ever-changing and fluid circumstances surrounding the landscape of education amid the pandemic, combined with the need to establish enrollment numbers and staffing in proper advance, we are remaining flexible with our educational format and delivery options. While our registration begins in February, classes will not begin until late May. Our goal and first priority will always be in-person education.

At this time, with so many unknowns, we are only able to ensure that Summer School will ultimately fall into one of three formats:

Full In-Person
In-person education is the most effective format and will always be our first priority. If we have reached a point of full return, certain measures will be retained as needed (masks, distancing, etc.).
Hybrid
Students who sign up for a classroom course will attend SHS in-person. Online courses will be taken through SUSD online Edgenuity program.
Full Online
Students would take their course(s) through SUSD online Edgenuity program.

It is the goal of our Summer School team to remain as flexible as possible while also providing clarity and direction to our students and parents. A decision regarding the final format of Summer School is likely to be made at some point in the middle of April. At that time, all students and parents will be notified via email regarding the educational delivery format for Summer School.

Attendance Procedures
Sahuarita Unified School District is offering two semester, two and half-week semester courses at Sahuarita High School this summer. All students are welcome! Students must stay on task for their target completion date and must complete the course in its entirety by the end of each semester. Grading will be based on a whole number grade. There will be no rounding up of grades to the next letter grade (ie. A 79% will be the final grade of a C and will not be adjusted to a B). Students have the choice during each semester to retake assessments during class in order to attain a higher score.

Food or drinks are permitted in classrooms at teacher's discretion. Food and drink is not permitted in the computer lab or library, except bottled water.
