In addition, they needed to implement 120 minutes of reading instruction with Reading First requirements and developing student friendly objectives. Mrs. Gates explained that the district-wide summary will be posted on the SUSD's website to meet the requirement as defined in A.R.S. 11-255. Mrs. Gates presented the 2007/2008 Annual Financial Report (**EXHIBIT A**). In addition, she also presented graphs explaining the M & O Expenditures for 2007/2008. She stated that 82% of the M & O expenditures for the 001 fund was spent on salaries and benefits, 11% was spent on supplies, 7% on purchased services, and 0% in the other category. The 2006-07 M & O expenditures included 84% of M & O expenditures for the 001 fund was spent on salaries and benefits, 10% on supplies, 6% on purchased services, and 0% in the other category. Mrs. Gates presented a bar graph of the differences between the 06/07 school year and the 07/08 school year. In addition, she broke down the 2007-08 M & O expenditures by program. The district spent 77% in regular education, 17% in special education, and 6% in transportation.

Mrs. Gates recommended approval of the AFR as it was presented. A motion to approve the 2007-2008 AFR was made by Mr. Lurkins and was seconded by Mr. Murphy. The motion carried.

### **2. Awarding of RFB-2009-2 Waterline Project**

The motion to approve the awarding of RFB 2009-2 to Sunwestern Contractors was made by Mr. McGee and was seconded by Mrs. Hall. The motion carried.

### 3. SFB Policies for New Construction & Reimbursements ++

The superintendent stated that the district has been made aware that the School Facilities Board did not have funding this year for new construction and by the looks of things he won't be surprised if there is not any funding for next year. Included in the Board packet was the SFB policies for New Construction & Reimbursements. The superintendent shared the SFB policies for new construction and reimbursements approved at the SFB meeting on October 2, 2008. He shared the following information regarding the policy as follows:

If a school district uses local funds to design and construct a new school facility project that has been approved by the SFB pursuant to ARS 15-2041, but for which State funds have not been provided due to lack of funds in the New School Facilities Fund, that project will retain its eligibility for its award from the fund until substantial completion if the following criteria are met:

- o The Executive Director confirms there are no monies available from the new school facilities fund to construct the project when the district signs the construction contract
- o The district follows all of the requirements in the SFB New Construction Policy SFB Policy V).
- o The Board confirms the eligibility of the district for the award and the funding level of the project prior to the district signing the construction contract.

As long as the project retains its eligibility for monies from the fund, the SFB will distribute monies according to the New Construction Policy to the school district when there are sufficient funds available. If the project reaches substantial completion before SFB funds are available, it will be consider locally funded space and will no longer be eligible for SFB funds. Nothing in the policy statement can or should be considered as obligating the State for any future expenditure. Please not that this policy statement can be affected, including but not limited to voided, by Executive and/or Legislative action.

The superintendent explained that according to the SFB Policy V – New Construction the School Facilities Board will allow 2 buildings ranging from 60,000 – 125,000 square feet. For example, a building size of 73,953 sq.ft. is allowed 2,578 lineal feet. SFB staff recommends the Board provide funding for 10 ft. of millwork per classroom, plus 40 ft in science, art, and music rooms. The superintendent explained that a standard 900 sq. ft. classroom has 120 lineal feet of wall space. In addition, SFB recommends that the Board provide funding for landscaping budget of 1% of the current cost per square foot multiplied by the awarded square footage. For example, for 80,000 square foot K-8, the current cost per square foot is \$132.85 or \$106,280. One percent of that amount is \$10,628,000. Within the budget, a school could install approximately 100,000 square feet (2.5 acres) of turf in addition to some landscaping at the front of the school. The SFB encourages the use of xeriscape as much as possible.

Mrs. Kellermeyer stated that she is concerned about the fact that we don't know if the SFB will pay us back or if we will loose eligibility.

After sharing the information with the Board, the superintendent stated that he feels comfortable moving forward on the building of the second high school. No action from the Board was taken.

### 4. Sahuarita Water Company Fees ++

The superintendent stated that Sahuarita Water Company is requesting an “advance in aid of construction” fees before construction can begin. A percentage of the fee is refundable. The fees are associated with the construction of and connection to a potable water source from Sahuarita Water Company totaling \$26,627.55. Dr. St. John recommended approval of the advancement of the Sahuarita Water Company Fees as stated above. A motion to approve the water fees was made by Mr. Lurkins and seconded by Mr. Murphy. The motion carried.

The superintendent stated that he met with Mr. Huckleberry regarding taking possession of Sahuarita Park on March 1<sup>st</sup>. The plan is to eventually have a K-8 school built down the road from the new high school.

Mrs. Kellermeyer suggested having the high school students surveyed and to give those students an opportunity to voice their opinions. She stated that she would like to wait and make a decision after the high school student have been given an opportunity to vote. Mrs. Kellermeyer stated the she still plans on holding Park Corporation to their 1 million dollar offer to stay off away from their property.

Mr. Lurkins stated that all the high school student will be gone next week for fall break but will be worth it to wait a couple of weeks so that they can give their input. He does not think two weeks will make that much of a difference or hold up the plans for too long.

Mr. McGee stated that he has received a lot of calls from the public about the public still being allowed to use the fields at Sahuarita Park.

The superintendent stated that we will have an IGA with Pima County and the Town of Sahuarita to work together to make it work.

Mrs. Kellermeyer made a motion to approve to make a final decision at the next Board meeting. This will allow all students 6-12 participate in the survey. In addition, she would like to hold another public meeting to for anyone else in the community that has any additional suggestions. It seems that the ongoing concern is how the park is going to function after the District takes it over. The motion was seconded by Mr. Murphy. The motion carried.
